

Luc Geurts

always wandering, learning ... chronic curiosity syndrome

I'm a Belgian/Irish expat who lives in France & the Netherlands. A former Microsoft Platforms PFE, T3 Escalation Engineer, Consultant who has a strong background in managing projects, troubleshooting complex operational issues, and architecting infrastructure automation. In private, a super nerd that loves tinkering with all kinds of open source software, and who's interested in far too much hobbies ranging from budo to trekking the alps, cruising freeways on a GSXR-600, or rehearsing paradiddles when his neighbours are not at home.

Professional Experience

2019–Present **Lead Project Engineer, ITIS, Netherlands.**

- o Participate in company pre-sales and project audits;
- o Introduce GitHub repository workflows in combination with Azure Boards, write sets of governance and policy documents, manage several projects (Standardization Data Centers, Re-Base Active Directory, Global Upgrade to Windows Server 2022), prepare & run training sessions for NOC engineers and Helpdesk staff at Huisman Equipment, one of the world's 3 largest manufacturers of heavy lifting, drilling, mooring, and pipe laying equipment for offshore concerns (engagement ends 09/22);
- o In the process of stepping up cloud partnership strategy between ITIS and AWS.

2017–Present **Co-Founder, Tech Lead, Engineering Consultant, Flouze EURL, France.**

- o Interim Technology Lead at a leading travel and tourism group. Having finished the migration to AWS, my team is occupied with maintaining functional services (websites, APIs, mobile apps) and automating EC2 provisioning through RedHat Ansible Tower. As of May 2021, we also started with building AI driven real-time contact center agents;
- o Manage the migration of a financial apps cluster at Le Crédit Lyonnais (finished 06/18);
- o Maintain a predominantly Microsoft & Apple based infrastructure at a school for at-risk children. This is a voluntary job (FACE aka Fondation Agir Contre l'Exclusion);
- o Coach & Tech Advisor for two startups (remote workspaces and financial modeling).

2012–2017 **Premier Field Engineer, Microsoft Corporation, Germany.**

The bullet point description of my job?

- o Assist MCS (Microsoft Consulting Services) by providing technical support in developing 'Tailored to Fit' solutions for Premier customers like for example Finanz Informatik and Deutsche Bahn;
- o Create/teach different types of offerings such as Workshops, Chalk & Talks;
- o Deliver proactive on-site Windows Platforms DSE services in the DACH region (70%);
- o Participate in on-call shifts, CritSits, and Health Checks (transactional, Europe, 30%);
- o Mentor new hires; helping them adjust and discover more about our organization and its culture, as well as enhancing their technical expertise.

– 45000 Orléans – Centre-Val de Loire, France
